Summary

Full Stack Developer with hands on experience building production ready MERN applications. Strong focus on authentication systems, transaction based workflows, dashboards, role based access control, and RESTful APIs. Proven ability to take projects from concept to deployment with attention to clean architecture, performance, and scalability. Actively seeking entry level or junior software developer roles.

Experience

Freelance / Personal Projects

January 2022 - Present

Full Stack Developer

Benin City, Nigeria

[🔗 https://coinrise-khaki.vercel.app](https://coinrise-khaki.vercel.app)

Designed and developed full stack MERN applications.

Implemented authentication, dashboards, and transaction flows.

Managed databases (MongoDB, MySQL) and deployed projects to production

Education

Online Learning

Self Directed Software Engineering Study

Computer Science Fundamentals (Self Taught)

Completed secondary school education and pursued self directed learning in software development through online courses, documentation, and hands on project building. Focused on JavaScript, React, Node.js, REST APIs, and database driven applications.

Projects

MERN Full Stack Applications

January 2022 - Present

Designed and developed full stack MERN applications including frontend UIs, backend APIs, authentication systems, role-based access control, dashboards, and transaction flows.

[🔗 https://coinrise-khaki.vercel.app](https://coinrise-khaki.vercel.app)

Managed MongoDB and MySQL databases with optimized schemas and secure data workflows; deployed applications to production; performed maintenance, debugging, and feature improvements.

MERN Stack, MongoDB, MySQL, Node.js, Express.js, React.js, REST APIs, Authentication, RBAC, Full Stack Development, Frontend UI, Dashboard, Deployment

Skills

Frontend Development

Building responsive and scalable user interfaces using modern JavaScript frameworks and component based architecture.

● ● ● ● ●

React, Next.js, JavaScript, TypeScript, Redux Toolkit, Tailwind CSS, MUI

Backend Development

Designing and implementing secure RESTful APIs, authentication systems, and server side application logic.

● ● ● ● ●

Node.js, Express.js, NestJS, REST APIs, JWT Authentication

Databases

Working with NoSQL and relational databases, schema design, and data driven application workflows.

● ● ● ● ●

MongoDB, MySQL

Tools & Engineering Practices

Version control, deployment workflows, API integration, and software development best practices.

● ● ● ● ●

Git, GitHub, Deployment, API Integration, System Design

Languages

English

Professional working proficiency
